SONGA SHIPMANAGEMENT LTD

SECURITY POLICY

With ever increasing threats to ships' security, whether it be from theft, stowaways, piracy, terrorism, bomb threats, drug smuggling and cyber-attacks, Songa Shipmanagement Ltd will take all possible measures to reduce the risk of these threats to an acceptable level.

It is our policy to maintain and improve security on board all ships.

All ships in our fleet are provided with a Ship Security Plan (SSP). Using the SSP as a base, we promote security through training, drills and commitment at all levels.

All Songa Shipmanagement Ltd personnel shall adhere to this policy and will identify to appropriate supervisory levels any situations which breach this policy.

Basic factors involved in the promotion of security and included in the SSP include:

- Company Security Officer (CSO)
- Ship Security Officer (SSO)
- Company Cyber Security Officer (CCSO)
- Physical Security Standards i.e. access to the ship and use of restricted areas
- Maritime Security Levels
- Communications
- General Anti-Terrorism Awareness
- Training and Drill Policy
- Documentation and Records

This policy is determined and fully supported by the Managing Director and the senior management team.

Kenneth David MacLeod
